SUBJECT INDEX, VOLUME 66

Adrenal cortex
- Cortisol-4-C^{14} in the adrenal of normal and vitamin C deficient guinea pig, 48
- changes in the ascorbic acid and corticosteroids in adrenal vein blood after ACTH, 144
- characteristics of ascorbic acid response to ACTH in rat, 149
- effect of reserpine and stress on body weight, adrenal weight and histology and hematocrit in rats, 167
- and medullary response to trauma in dogs with isolated pituitaries, 200
- hyperactivity of adrenal gland in migrating and spawning salmon, 222
- hypertension after ablation in rats given hypertonic saline to drink, 240
- corticosteroid production by interrenal tissue of teleost fishes, 295
- effect of removal of bursa Fabricii on ascorbic acid in ACTH-treated chicks, 304
- stress-induced adrenal ascorbic acid depletion in cat, 308
- zona glomerulosa mass after hypophysectomy in dog, 403
- corticosteroid secretion in rat as influenced by omega-methylpantothenic acid, 420
- compensatory hypertrophy as a possible cause of metacorticoid hypertension, 428
- isolation and identification of steroids released by rat adrenal tissue incubated *in vitro*, 458
- inhibition of 17-hydroxycorticoid secretion by methylenedianiline, 470
- plasma 17-hydroxycorticoid secretion in dog as influenced by o,P′ DDD, 494
- effect of ablation and prednisolone on extracellular fluid and bone composition in the rat, 508
- cortisone induced modifications in chick embryo development, 533
- cortisol influence on thymic 11β-hydroxy dehyrodgenase system, 550
- anabolic activity in monkey of fluoxymesterone and its 11-keto analogue, 585
- effect on eruption rate of incisor teeth in rat, 625
- steroid effects upon urinary ammonia in adrenalectomized, acidotic rat, 630
- hormones: standardization and influence on work performance in rat heart-lung preparation, 719
- effect of decompression stress upon plasma K and glucose in cat after ablation of, 763
- corticosteroid activity of transplantable adrenocortical carcinoma in rats, 769
- effect of cortisone upon blood, adrenal cortex and gonads and osteoporosis in birds, 805
- relationship between serotonin and adrenal, 832
- the thymolytic activities of 16α, 17α ketals of triamcinolone, 900

Adrenocorticotropin
- stability in blood, plasma, serum and saline, 59
- some characteristics of an ACTH-inactivating system in plasma, 73
- effect on ascorbic acid and coricosteroid content of adrenal vein blood, 144
- effect on ascorbic acid response in rats, 149
- in ultracentrifuge fractions, 175
- regulation of ouput in rats with hypothalamic lesions, 217
- release as influenced by diphenylhydantoin, 355
- release as influenced by midbrain transection, 501
- steroidogenicity of α, β, γ, δ-corticotropin, 819
- from rat pituitary homografts, 842

Adrenal medulla
- responses to trauma in dogs with isolated pituitaries, 200

Amygdala
- effect of bilateral ablation on endocrine functions in the rat, 565

Estrogen
- effect on uterine phenol-stimulated oxidase, 39
- isolation and identification in bile of pregnant women, 80

effect on skeletal metabolism, 100
effect of stilbestrol on immature rat ovary and its response to gonatropin, 121
biosynthesis, 19-hydroxy-Δ^4-androstene-3, 17-dione, an intermediate in estrogen biosynthesis, 416
metabolism of 16-ketoestrone by human placenta, 491

Gonadotropins
in ewe at different stages of estrous cycle, 273
ovarian response to FSH or HCG in alloxan diabetic rats, 475
purification of sheep FSH by ion exchange chromatography, 575
hormone content in pituitary of dogs with hypothalmic lesions, 735
and adrenocorticotropin from rat pituitary homografts, 842

Hypophysis
intracellular localization of hormones by differential centrifugation, 1
vascular responses in the stalk, 19
study of ACTH in ultracentrifuge fractions, 175
gonadotrophins in ewe at different stages of estrous cycle, 273
ablation and mitotic activity in glandular stomach of rat, 886
Hypothalamus
effect of lesions on regulation of ACTH output, 217
effect of lesions on thyroid response to partial ablation, thyroxine and 2, 4 dinitrophenol in rats, 327
effect of lesions on thryoid function, temperature regulation and growth in rats, 340
effect of lesions on testes and prostate of dog, 480
effect of lesions on pituitary gonadotropin content in dogs, 735

Lactation
glucose and acetate metabolism and lipogenesis in mammary glands of hypophysectomized rats in which lactation was hormonally induced, 280
ducto-alveolar growth in adreno-gonadectomized male rats bearing mamotropic pituitary tumors, 893
Lactogenic hormone
concentration in pituitary during pregnancy in the rat, 96
effect of xanthine oxidizing activity of pigeon tissue, 315
Liver
vascular exclusion and effect on glucose metabolism, 783

Mammary glands
glucose and acetate metabolism and lipogenesis after hypophysectomy and hormonal induction of lactation, 280
ducto-alveolar growth in adreno-gonadectomized male rats bearing pituitary tumors, 893
Melanocytes
movement of pigment granules in frog, 599
Menstrual cycle
irregularities in rhesus monkey elicited by reserpine, 824

Neurohypophysis
effect of synthetic oxytocin, arginine vasotocin and extracts from non-mammalian vertebrates on water permeability of bullfrog bladder *in vitro*, 112
hormones and analogues, effect on rat uterus as modified by magnesium ions, 451
effect of hemmorrhage on vasopressin in blood, 712
ultrastructure and function in toad, 741
failure to demonstrate TSH-releasing activity of pitressin and oxytocin, 777
pharmacological properties and tentative identification of avian hormones of, 860

Ovary
effect of unilateral ablation on follicular maturation in the hamster, 89
response to gonadotropin as influenced by stilbestrol, 121
effect of cortisone upon hen ovary, 805
Ovulation
induced in amphibian ovaries *in vitro* by mammalian pituitary hormones, 255
induced in hen by brain injection of progesterone, 269

Pancreas
hepatic response to glucagon in unanesthetized dog, 260
suppression of steroid diabetes by Walker carcinoma in rat, 289
ovarian response to FSH or HCG in alloxan diabetic rats, 475

effect of diabetogenic hormones on blood sugar and pancreas of sulfonylurea-treated animals, 702
hyperglycemia caused by oral glucose in turtles, 731
Parathyroid
evidence for liver inactivation of parathyroid hormone, 312
ablation effect on blood and urine calcium in *Rana pipiens*, 441
a new method for the bioassay of Ca mobilizing fraction of extracts of, 527
extract effect and parathyroid removal on time course of urinary excretion of inorganic phosphate by rats, 610
extract-induced renal calcification accompanied by increase in bound S^{35}, 665
hormone effect on resoprtion of bone and transaminase activity, 890
Pineal
effect of light on weight of, in rats, 489
Placenta
metabolism of 16-ketoestrone in women, 491
Progestins
masculinization of female fetuses in rat by progestational compounds, 140
injected into brain of hen induce ovulation, 269
progestational effects of methylenedianiline are adrenal-dependent, 470
inhibition and synchronization of mating in mouse by oral administration, 898

Relaxin
reversibility of thiouracil-induced inhibition of interpubic separation in virgin mice given thyroxine or large doses of relaxin, 129

Skeletal effects
bone metabolism in estrogen-treated rats studied by means of Ca^{45}, 100
osteoporosis in the laying hen, 377
composition of bone as influenced by adrenalectomy or prednisolone, 508
modifications induced in chick embryos by cortisone, 533
effect of cortisone upon blood, adrenal cortex and gonads and osteoporosis in birds, 805
Steroids
effect of medium and esterification on biological activity, 2
suppression of steroid diabetes by Walker carcinoma in rat, 289
19-hydroxy-Δ^4-androstene-3, 17-dione an intermediate in estrogen biosynthesis, 416
anabolic activity of fluoxymesterone and its 11-keto analogue, 585
biosynthesis in stallion testes, 617
thymolytic activities of 16α, 17α, ketals of triamcinolone, 900

Testes
as effected by hypothalamic lesions in dog, 480
biosynthesis of steroids in stallions, 617
protein anabolic action of testosterone propionate in hyperthyroid-castrated rats, 786
noneffect of alleged aphrodisiacs: "pega palo" and "bois cochon," 788
Thyroid
effect of thyroxine analogues on a transplantable mouse pituitary tumor, 32
changes in thyroid: serum radioiodide concentration ratio during estrous cycle in rat, 135
triiodothyronine uptake by erythrocytes, 138
O_2 consumption and tissue cholesterol in rat, 160
T/S iodide ratio in hypophysectomized rat, 306
effect of thyroxine and related compounds on monoamine oxidase activity, 311
effect of 2, 4 dinitrophenol in rats with hypothalmic lesions, 327
function, body temperature regulation and growth in rats with hypothalamic lesions, 340
cancer, induced and spontaneous, in Syrian hamster, 364
tissue homograft survival and function in membrane filter chambers in rat, 392
effect of thyroxine analogues on oxygen uptake of chick heart muscle, 409
relative sensitivity of various responses to thyroxine, 433
decrease in aerobic glycolysis of erythrocytes following L-triiodothyronine administration, 517
comparison of *in vivo* and *in vitro* effects of triiodothyronine, 521
effect of storage of NaI^{131} solutions upon thyroid uptake in day-old chicks, 559
some new analogues of thyroxine, 628

preparation and metabolism of iodinated peptides, 669
physiologic disposition in rat of analogues of thyroxine and triiodothyronine, 676
induction of TSH-dependent thyroid tumors by thyrotropes, 694
"cysteinyltyrosinase" activity as influenced by TSH and methylthiouracil, 773
study of plasma protein thyroid hormone complex, 780
protein anabolic action of androgen in hyperthyroid-castrated rats, 786
radioiodine utilization in the chick, 785
chemical identification of iodine-containing compounds in human serum, 845
selective inhibition of calorigenic activity of thyroxine analogues by thiouracil in rats, 872
accumulation of fluoroborate ions in thyroid glands of rats, 888
Thyrotropin
effect on release of iodide from the thyroid, 185
comparison of rate of disappearance from blood of thyrotrophin and an abnormal thyroid stimulator, 658
-dependent thyroid tumors induced by thyrotropes, 694
and methyl-thiouracil influence on "cysteinyltyrosinase" activity of rat thyroid gland, 773
release not affected by pitressin or oxytocin, 777
action on intermediate metabolism of sheep thyroid tissue *in vitro*, 851

Uterus
effect of estrogen on phenol-stimulated oxidase, 39
